TABLE OF CONTENTS

According to the **Common Core State Standards**, both qualitative and quantitative scales of text complexity should locate the college- and career-ready reading level as the endpoint of the scale. Lexile ranges have therefore been realigned to match the **Common Core Standards'** text complexity grade bands, and reflect the standards' trajectory of reading comprehension development through the grades. The **Common Core State Standards** Initiative offers the following overlapping Lexile bands (or Lexile ranges, as defined by Common Core) to place texts within grade bands.

Grade	GRL*	DRA	EIL
Pre-K–1	A–D	A, 1–4	1–8
1–2	D–H	3–14	4–14

4–5	P–T	38–50	28–34

Superintendent Sid let himself smile, which didn't happen often.
"That's what I wanted to hear," he said. "There's just one question."
"What?" said Derek and Sergeant Norman at the same time.
